WHAT IS COPYRIGHT?

Copyright is the exclusive and assignable legal right, given to the originator for a fixed number of years, to print, publish, perform, film, or record literary, artistic, or musical material.

Registering a copyright helps protect the original work from unauthorized use and provides legal ownership rights to the creator or applicant.

Benefits of Registering Copyright

1. It ensures certain minimum safeguards of the rights of authors.
2. It establishes a public record of the copyright holder's ownership.
3. It provides legal evidence of ownership.
4. It helps the copyright holder bring a lawsuit for copyright infringement.
5. Without copyright registration, only actual damages and profits may be available during litigation.
6. It permits the copyright owner to record the registration with Indian Customs for protection against importing infringing copies into India.
7. The owner can sell or transfer rights of the work to another person with copyright protection.
8. Copyright protection exists during the lifetime of the creator and continues for 60 years after the creator's death.

List of Documents Required for Copyright Registration

1. Two copies of the work.
2. DD/IPO of applicable government fees per work.
3. NOC from the author if the applicant is different from the author.
4. NOC from the publisher if the work is published and the publisher is different from the applicant.
5. Search Certificate from Trademark Office (TM-60) if the work is being used on goods.
6. NOC from the person whose photograph appears on the work.
7. Specific Power of Attorney in original if the application is filed through an attorney.
